Early Literacy

Classroom Library

Support the independent reading of your earliest readers with titles focused on

- letters of the alphabet
- letter/sound correspondence
- initial consonant blends and digraphs
- phonograms
- long and short vowel sounds

Emergent readers practice foundational reading skills—the alphabetic principle, phonological awareness, phonemic awareness, word recognition, word generation, word decoding, comprehension, and print awareness. Classroom library provided as online digital titles.

PERFECTION LEARNING

Spelling

WITH
INTEGRATED LANGUAGE ARTS

Teach spelling while improving reading, writing, and language skills

Research has shown that students who are taught to recognize spelling generalizations among words show more spelling success.

This program focuses on these common spelling rules through four primary strategies of instruction—visual memory, phonics, word structure, and analogy.

- The **research-based** approach develops the spelling strategies and skills needed for reading and writing success.
- Spelling activities **build TEKS-based skills** in reading, writing, language, and speaking/listening.
- Supports students of all abilities through **differentiated instruction**, word lists, and ELL support.

FREE with all classroom purchases
of Grades 1–5 Handwriting!

Includes digital access to Student Book and Teacher Edition files.

Print only the pages you need!
